

HIGHLIGHTS OF THE PRESIDENT'S DAILY ACTIVITIES – Wednesday, May 11, 2016

- The Cabinet, at its regular sitting on Wednesday, May 11, critically reviewed, examined and analyzed Tier Three Performance updates from the Ministries of State for Presidential Affairs, National Defense, Internal Affairs, Public Works, Post & Telecommunication, Youth and Sports while mandating provisional approval for the creation of a National Public Health Institute of Liberia (NPHIL). The Cabinet received essential updates of ongoing renovation works on the Executive Mansion, finalization of contractual modalities for designs cum drawings of the National Library, devolution of management role and the maintenance responsibility for the Executive and Centennial Memorial Pavilions; the preparedness of the Armed Forces of Liberia (AFL) to fill the void amid UNMIL drawdown plan, the need to de-congest Edward Binyah Kesselly Barracks in light of the proposed rehabilitation of the Tubman Military Academy in Todee and the intervention of the AFL in critical road rehabilitation projects around the country, amongst others.
- President Ellen Johnson Sirleaf on Wednesday, May 11, visited hundreds of disaster victims and residents of the slum community of West Point, who were made homeless by sea erosion and assured them of government's continued support. The President made the statement at the Administrative Building when she led an array of senior government officials to the affected area to identify with victims of the sea erosion and residents that rendered several West Pointers homeless.
